So the amendment was rejected.

The result of the vote was announced as above recorded.

The Acting CHAIR (Mr. BISHOP of Georgia). There being no further amendments under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Ms. WASSERMAN SCHULTZ) having assumed the chair, Mr. BISHOP of Georgia, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 1941) to amend the Outer Continental Shelf Lands Act to prohibit the Secretary of the Interior including in any leasing program certain planning areas, and for other purposes, and, pursuant to House Resolution 548, he reported the bill, as amended by that res-

olution, back to the House with sundry further amendments adopted in the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any further amendment reported from the Committee of the Whole? If not, the Chair will put them en gros.

The amendments were agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT

Mr. GRAVES of Louisiana. Madam Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. GRAVES of Louisiana. Madam Speaker, I am in its current form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Graves of Louisiana moves to recommit the bill, H.R. 1941, to the Committee on Natural Resources with instructions to report the same back to the House forthwith with the following amendment:

At the end of the bill, add the following:

SEC. ____ EFFECTIVE DATE.

Section 2 of this Act shall take effect on the date the President certifies that the enactment of this Act will not increase the national average price of gasoline.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Louisiana is recognized for 5 minutes in support of his motion.

Mr. GRAVES of Louisiana. Madam Speaker, we sat here for hours talking about the objectives of legislation to impose a moratorium on offshore energy production. I have heard the advocates for the legislation talk about the objectives of protecting our environment and preventing energy spills of oil. I have heard advocates talk about the objective of reducing greenhouse gas emissions. I have heard objectives discussed regarding creating jobs, perhaps green jobs, and ensuring that we have economic activity here in the United States.

Madam Speaker, I share those objectives. This bill doesn't do it. So let's go one by one and address the various objectives and address the facts associated with them.

Number one: Madam Speaker, when we stop producing energy domestically, we don't stop using energy. We don't change the form of energy. What happens is, as statistics prove, as the Department of the Interior officials have reported to the Natural Resources Committee, we increase our dependence upon imports from other countries.

When you import energy, they have lower environmental standards. You release greater greenhouse gas emissions, and by putting it on a ship, you

have a greater chance of spilling the energy. The safest thing you can do is produce it domestically and put it in a pipe.

Secondly, Madam Speaker, you have heard the discussion about ruining coastal habitat. You have heard the discussion about ruining coastal communities.

Madam Speaker, when you look at the statistics, in 2017, California produced about 209 million pounds of seafood; the State of Florida, about 111 million pounds; the State of South Carolina, about 10.5 million pounds. Louisiana, which has four times more energy production in the offshore than all other States combined, we produced 90 times that of South Carolina, or 900 million pounds of seafood, valued at more than \$360 million.

In addition, these funds go toward—the revenue sharing under offshore energy production goes to the resilience of your coastal ecosystem and the resiliency of your communities.

Madam Speaker, I shudder to think down the road, if we stop offshore energy production, what happens when a hurricane comes in and devastates communities, because we put a moratorium in place preventing the availability of revenues to protect those very communities.

In regard to the emissions, the United States has reduced greenhouse gas emissions more than the next 12 countries combined. We have done it without mandates, without requirements—more than the next 12 countries combined.

A BOEM report says emissions could increase in the absence of a new OCS leasing program. Madam Speaker, that was a report under the Obama administration. This bill does just that. It prevents additional leaseings in new areas.

Case in point, when the State of California tried to impose their renewable energy portfolio, they have increased their dependence upon oil from Saudi Arabia. In New England, they have imported natural gas from Russia. These policies don't make sense as evidence has proven.

In regard to creating jobs, when President Obama was in office in 2011, one-half of this Nation's trade deficit, one-half, was attributable to us importing oil from other countries. Those countries do not have the safety record, the safety regime we have in the United States.

I join the Laborers' International Union of North America's president in believing that this bill is purely for political purposes. The union members working in the energy sector are being targeted. Instead of working to enact real job-creating infrastructure legislation, union members see their jobs, once again, being denigrated and belittled. Energy development can coexist with environmental stewardship.

Lastly, Madam Speaker, this motion to recommit is about gasoline prices. A run-up in world oil prices is effectively a tax on every American family's discretionary budget, except that the

money goes to the OPEC cartel rather than the U.S. Treasury.

Let me say that again. A run-up in world oil prices effectively attacks every American family's discretionary budget, except that the money goes to the OPEC cartel rather than the U.S. Treasury. Those aren't my words. Those are the words of Senators CANTWELL, MENENDEZ, MARKEY, and SCHUMER.

This amendment ensures that this legislation does not result in a disproportionate impact on the poor by raising gasoline prices and energy access to Americans across the board; of course, again, disproportionately impacting those of low income.

Madam Speaker, I urge adoption of the amendment, and I yield back the balance of my time.

Mr. CUNNINGHAM. Madam Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman from South Carolina is recognized for 5 minutes.

Mr. CUNNINGHAM. Madam Speaker, I rise to protect our environment. And as a former ocean engineer, I rise on behalf of the Lowcountry in the First Congressional District of South Carolina.

This motion to recommit wants to cede more power to our President, but I believe in the Constitution, and I believe in separate but equal branches of government like our Founding Fathers intended.

We, as Members of this institution, have an obligation to not only respond to current events, but also to anticipate future problems and work to prevent them. You don't wait for a bridge to break to fix its foundation, and you don't wait for the hurricane to hit before boarding up your windows, and you don't wait for an oil spill to realize that offshore drilling is just not worth jeopardizing our booming tourism industry.

As my father used to say, the juice just ain't worth the squeeze.

This bill ensures that no new lease sales are made along the Atlantic and the Pacific. We are not looking to reverse existing sales, just prevent new ones.

So why does this matter? Because public opinion matters, and because our friends and our neighbors have expressed their opposition to offshore drilling along our coasts.

There are certain things that go beyond politics, issues that touch each and every one of us personally, things that transcend partisan lines.

In South Carolina, we have strong bipartisan opposition to offshore drilling. It doesn't matter what party you belong to. We all enjoy the same beaches, the same sunset, and the same coastal economy, like South Carolina's, which is worth over \$22 billion. That is at risk. Whatever limited economic benefit may be gained from oil drilling is both fiscally and morally irresponsible.

I want to remind the folks of the remarkable track record Republicans

once had for environmental conservation. The National Environmental Policy Act and two Clean Air Acts were both signed by Republicans. A Republican created the Environmental Protection Agency.

By voting against this bill, Republicans promote pollution; they put profits over people; and they erase the legacy of environmental conservation that Republicans before them worked so hard to build.

I want to remind my colleagues, if they are a true conservative, if they are a real conservative, then be an environmental conservative, too.

This idea that offshore drilling is necessary for the country to achieve energy independence is just a red herring. As President Trump pointed out earlier this year during his State of the Union speech, the United States is now the number one producer of oil and natural gas in the world.

Yes, USA, USA, USA.

President Trump said that, for the first time in 65 years, we are a net exporter of energy. We have managed to make all this energy progress, and all that progress has been made without drilling in the Atlantic and Pacific.

We are sending 3 million barrels of oil overseas every single day. We do not need to put oil rigs in the Atlantic Ocean at all.

Why would we damage our beaches, our God-given natural resources, just to export more oil to other countries? Why would we do that?

To answer that question, we must first answer a more basic question: Who did you come here to serve?

When we see Old Glory, we pledge our allegiance to the flag and to the Nation, not to a party and not to a President.

This is not a partisan question, so let us not give a partisan answer. Let's defeat this motion to recommit and pass H.R. 1941.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the yeas appeared to have it.

Mr. GRAVES of Louisiana. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of passage.

This is a 5-minute vote.

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

HOUR OF MEETING ON TOMORROW

Mr. PAYNE. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 9 a.m. tomorrow.

The SPEAKER pro tempore (Mr. GARCÍA of Illinois). Is there objection to the request of the gentleman from New Jersey?

There was no objection.

U.S. WELOVEU FOUNDATION

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Mr. Speaker, I take a moment and praise the work of the International WeLoveU Foundation, which I am proud to say is located in Oradell, New Jersey.

The organization and supporters are dedicated to improving the lives and conditions of people across the globe. They focus on the belief that we are all human beings, and when we help each other out, we bring out the best in all of us.

Last July, I attended one of their events, a walkathon in Jersey City's Liberty State Park. They raised \$50,000 to support disaster relief in Mozambique. Basically, the country was hit by two hurricanes in 2 months that devastated towns, farms, and homes.

Most people did not even know it happened, so I was impressed to see 2,500 people donate their time and effort to help people thousands of miles away. But that is what the WeLoveU Foundation does and continues to do.
